

Hello,

As a seasoned educator, I am thrilled to bring to your attention a new product that I discovered which I truly believe will make a difference in the lives of parents or guardians with special needs children. As a teacher and parent of a child with special needs who has attended many I.E.P. meetings, I jumped for joy when I saw [My IEP ToolKit](#) –a binder system designed to organize all the “stuff” that goes along with having a special needs child. This kit stores everything from IEP evaluations, to testing and progress reports, to available resources. It empowers parents and guardians to remain focused on the needs of their children in order to make effective progress in school.

[My IEP ToolKit](#) debuted just last month at the Federation for Children with Special Needs Conference in Boston and received rave reviews. I believe so strongly in this product that I wanted to share it with every parent or guardian who has a special needs child. Realizing that I couldn't accomplish this feat by myself, I am asking for your help by sharing this information with your special needs parents.

Please distribute this information to parents of your Sped Pac and include it in any list serve. Thank you!

Best wishes,  
Michele Mullen M.Ed
